DETAILED ACTION

Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119(e) as follows: This application is claiming the benefit of provisional application No. 60/369978 (appears to be a typo for 60/396978) and 60/396979 under 35 U.S.C. 119(e). However, this application was not filed within twelve months from the filing date of the provisional application, and there is no indication of an intermediate nonprovisional application that is directly claiming the benefit of the provisional application and filed within 12 months of the filing date of the provisional application.

Note: If the day that is 12 months after the filing date of the provisional application falls on a Saturday, Sunday, or Federal holiday within the District of Columbia, the nonprovisional application claiming the benefit of the provisional application may be filed on the next succeeding business day.

Applicant is required to delete the reference to the prior-filed provisional application from the first sentence(s) of the specification or the application data sheet, depending on where the reference was originally submitted, unless applicant can establish that this application, or an intermediate nonprovisional application, was filed within 12 months of the filing date of the provisional application.

Claim Objections

Claims 3, 13, 14, and 17 are objected to because of the following informalities: In claim 3 line 3 the first "said" should be removed. In claim 13 line 3 the term "stop member" should be changed to "stop bar" to agree with claim 10, as there is no stop member previously mentioned. In claim 14 line 9 "implement support platform" should

be changed to "blower support platform" to agree with the rest of the claim. In claim 17 lines 1 and 2 the term "stop member" should be changed to "stop bar" to agree with claim 14 as there is no stop member mentioned previously. Appropriate correction is required.

Allowable Subject Matter

Claims 1-17 are allowed, with claims 3,13,14 and 17 objected to for minor informalities. The claims depict subject matter that is not found in the prior art singularly or taken as a whole. In particular the structure of the latching assembly with one portion on the implement assembly and the other portion for mounting to a vehicle was not found in the prior art.

Conclusion

This application is in condition for allowance except for the following formal matters, which are listed above, i.e. the claim and specification(priority) objections.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
